

Donation and Barter

The man who gave this reed organ to us wants it to go to a Museum or Church, and be well taken care of. It is in excellent shape, and is 90 to 100 years old. He wants a \$1000.00 tax credit for it, as he spent that much in restoring it. We require the moving costs be refunded to us. (\$200.00).

Also, we would like to barter with other museums as we have some things that do not suit our one room school house museum. (Midwinter Heritage Site).

1. We have an army green war time desk, with many drawers,
2. A brass seal/stamp from a food market.
3. A 10 piece - 78 speed record set about achieving a healthy mind and body.
4. A boxed set of printing fluid, an addressing machine called Addressoprint
5. Many school desks - suited to one student. These desks have no ink well.

And in return-

We would like some or all of these = two-seater school desks, display cases in good condition, with a glass front and top, sliding doors at back, and fashion items from 1900 to 1960. We are also looking for pictures of kids/teachers at one room school houses, and any early pioneer items to do with household work, farming, wood cutting & general store items & signs.

If someone would like to barter with us or donate any of these items, please call Margaret and Bill at 287 2316.
