**Suppliers List – Part Two**

The last AMM Messenger of May 29<sup>th</sup> contained an endorsement of the Suppliers List and I'd like to add a few more words on that subject.

How many times have you needed a specific item and didn't want to wait for it to be shipped in on back order from elsewhere in the country, or balked at paying shipping fees that were almost as much as the purchase price? Please check the AMM Suppliers List first and if you can't find a local supplier, let me know and I will look for it for you!

The Suppliers List is a work in progress, always being updated. There was a comment at the recent ReOrg conference that the plastic screws for making Coroplast boxes were only available from a supplier in Toronto. There is in fact a local supplier, updated in the Suppliers List. I also added the manufacturer, for anyone who wants to buy in bulk.

Another important update is that ULINE is now selling archival storage supplies including double-sided encapsulation tape. You can find this and any other new and updated information by looking for entries in coloured ink. I usually leave them like that for a month as new information is added.

I came across a few deals that may be of interest. **Diamond Athletics** is selling off a surplus of Velcro, and **WR Display** is offering up to \$50 free freight on June 21<sup>st</sup>. Both of these suppliers can be found in the Suppliers List!
